***Reasons for Allowance***

4. Claims 8-12, 14, 15, and 17-20 are allowed.

The following is an examiner’s statement of reasons for allowance.

5. Regarding claim 8, prior art does not disclose or fairly suggest an x-ray source including an electron beam deflector having a U-shape with two legs straddling a neck region at a corner, each of said legs having a leg surface facing and contacting said exterior surface of said corner, and each leg surface in combination with an exterior surface of said corner forming a channel adapted to allow a flow of coolant therethrough, in combination with all the limitations in the claim. Claims 9-11, 17, and 18 are allowed by virtue of their dependency.

Art Unit: 2882

6. Regarding claim 12, prior art does not disclose or fairly suggest a method for cooling an X-ray tube including the step of forming a channel for a coolant by placing respective legs of an electron beam deflector directly over an exterior surface of a corner to contact each leg surface with the exterior surface of said corner, in combination with all the limitations in the claim. Claims 14, 15, 19, and 20 are allowed by virtue of their dependency.
